Grade 1 ≪Annual Plan ≫

Section 3.1

Grade 1 | Term 1

Stra nds	Topics	Sub Topics	Learning Outcomes	Lessons	
		Counting forward, backward,	Use calculators to count in a variety of ways. Count in sequence to 100.		
ots					
Sonce	Counting		3. Count by 10's to 100.		2.0
Number Concepts			4. Count by 2's and 5's to 50.	1 12 1	wk
N		, and the second	5. Count backwards from 10.		
			6. Count on from a given number.		
	General Relationships among operations of', 'times', etc. 2. Use several devices (e.g., concrete and pictorial representation, a calculator) to explore the properties of additionand subtraction, e.g., if 5 + 2 = 7 then 2 + 5 = 7; 7 - 0 = 7. 3. Use several devices to demonstrate relationships among the several devices to demonstrate relationships are several devices to demonstrate relationships among the several devices to demonstrate relationships among the several devices to demonstrate relationships among the several devices to demonstrate relationships are several devices to demonstrate relationships among the several devices to demonstrate relationships are several devices to demonstrate relation	Vocabulary	subtraction, and multiplication, using appropriate vocabulary such as 'total', 'sum', 'join together', 'subtract', 'take away', 'sets		
			representation, a calculator) to explore the properties of addition	7	
tation			3. Use several devices to demonstrate relationships among the number facts for addition and subtraction, e.g., if $5 + 4 = 9$ then $9 - 5 = 4$.		
			3.5		
Computation			Create and solve problems involving addition of one digit numbers, with totals up to 20.	. 14	wk
			Add two one-digit numbers, using objects and pictures/diagrams.		
	Addition of whole numbers		7. Add three one-digit numbers, using objects and pictures/diagrams, with totals up to 20.		
		representation	8. Mentally add two one-digit numbers, with totals up to 10.		
			Write number sentences to represent addition.		
			10. Use objects to determine the missing number in an addition number sentence, e.g., 7+8=4+□, 12=□.		

Stra nds	Topics	Sub Topics	Learning Outcomes	Lesso	ons
	Collecting data through looking and asking Data Collection	ata	Classify objects and people (e.g., classmates) according to selected criteria.		
Statistics			2. Collect simple sets of data in the class and school environment through observation and simple interviews.	12	2.0 wk
	Recording data using numbers and words		3. Record collected data using simple number statements.		
	I hree- Dimensional	Three- Dimensional Attributes/ 4. Shapes Features set	Describe the attributes of three-dimensional shapes, using phrases such as flat, curved, round, etc.	 15	
			2. Classify three-dimensional shapes on the basis of their attributes such as shape, size and/or function.		
			Select and use their own criteria to classify three-dimensional shapes.		
Geometry			Explain the criteria that they selected and used to classify a of three-dimensional shapes.		2.5 wk
			Explain why a given three-dimensional shape can slide, roll, r stack.		
		7 a	Use three-dimensional shapes to make objects, e.g., a tower, car.		

Stra nds	Topics	Sub Topics	Learning Outcomes	Less	ons
		ur Use of non- 2.	Estimate lengths and heights of objects using non-standard its.		
			Measure lengths and heights of objects using non-standard its.		
			Estimate and measure distances in the school environment using non-standard units.		
	Linear		4. Explain why standard units are necessary.	10	
	Measurement	Use of the metre to measure length, neight and distances	 Estimate and measure lengths and heights of objects using the metre as the unit of measure. 	. 12	
Measurement			Estimate and measure distances in the school environment using the metre as the unit of measure. 3.0wk		
			7. Record linear measurements using appropriate notation.		
			8. Compare two linear measurements using phrases such as longer than, shorter than, taller than, etc.		
	Mass		Estimate and measure the mass of objects using non- standard units.		
		Mass Use of kilogram	10. Estimate and measure the mass of objects using the kilogram as the unit of measure.	6	
			11. Record measurements of mass using appropriate notation.		
		Comparison of mass	12. Compare the mass of two objects, using phrases such as heavier than, lighter than, etc.		

Section 3.2

Grade 1 | Term 2

Stra nds	Topics	Sub Topics	Learning Outcomes	Less	ons		
				7. Write numbers up to twenty in words8. Count and identify the number of objects in a set objects.	8. Count and identify the number of objects in a set of up to 20		
			9. Make and draw sets of up to 20 objects.				
		Making and comparing sets Representing numbers Whole Numbers	10. Make and draw sets that is equal to, one more than, or one less than a given set.	·1 15F			
Concepts	Whole		11. Compare sets of up to twenty objects using the symbols '=', '<' or '>'.		2.5		
Number Concepts			12. Write the correct numeral to indicate the number of objects in a set.		wk		
			13. Read and write numerals up to 20.				
			14. Compare pairs of numerals (up to 20) using the symbols '<' or '>'.				
		Orc		15. Identify the position of an object in an ordinal arrangement of up to 10 objects.			
			16. Use collective number names such as pair, set, group.				
Computation		Concrete, pictorial, and symbolic 12. Subtraction of	11. Create and solve problems involving subtraction situations.				
			12. Subtract a one-digit number from numbers up to 20, using objects and pictures/diagrams.	12	2.0 wk		
			13. Write number sentences to represent subtraction.				

Stra nds	Topics	Sub Topics	Learning Outcomes	Less	ons	
		Recording data using objects and tables	4. Represents collected data using objects, e.g., picture cutouts and blocks. d			
Statistics			•			
			Describe how data are presented in simple pictographs, where one picture represents one unit of data.	12	2.0 wk	
0)		Describing simple graphs	7. Describe how data are presented in simple bar graphs, where one block represents one unit of data.			
			Describe similarities and differences between pictographs and bar graphs.			
			8. Identify examples of two-dimensional shapes.			
			9. Classify two-dimensional shapes on the basis of their attributes, e.g., shape, size, number of sides.		2.0	
Geometry	Plane Shapes	Plane Shapes	10. Select and use their own criteria to classify two-dimensional shapes.	I 12 I		
Geo			11. Explain the criteria that they used to classify a set of two- dimensional shapes.		wk	
			Naming shapes	12. Identify and name rectangles, squares, and circles.		
		Drawing shapes	13. Sketch two-dimensional shapes.			
			13. Estimate and measure the capacity of containers using non- standard units.			
Measurement	Capacity	Capacity Use of non-standard units 14. Compare the capacity of containers using non-standard units, using phrases such as holds more than, holds less than etc. 15. Record measurements of capacity using appropriate notation.	units, using phrases such as holds more than, holds less than,		1.5	
Measu					wk	
	Temperature		16. Describe the temperature of an object using phrases such as 'warm', 'hot', 'cold', etc.	3		

Section 3.3

Grade 1 | Term 3

Stra nds	Topics	Sub Topics	Learning Outcomes	Less	ons
	Fractions	Meaning of a whole and a part	17. Identify a whole and parts of a whole.	9	
cepts		Fractions One-half, one-	18. Identify one-half and one-quarter of a whole.		
Number Concepts			19. Explain what one-half and on-quarter mean.		1.5 wk
Nun		quarter of a whole	20. Represent one-half and one quarter of a whole.		
		•	21. Read and write the fractions $\frac{1}{2}$ and $\frac{1}{4}$.		
		ultiplication ofRepeated addition hole numbers	14. Use objects and pictures/diagrams to show repeated addition situations.		
	Multiplication of whole numbers		15. Describe repeated addition situations using 'sets of'.	122 w	
omputation			16. Write number sentences to represent repeated addition situations, e.g., 2 + 2 + 2 = 6, 3 sets of 2 make 6.		2.0 wk
ပိ			17. Complete multiplication number statements, with products up to 12.		
			18. Create and solve problems involving multiplication with products up to 12.		
			Read the data presented in simple tables.		
,,			10. Interpret the data presented in tables.		
Statistics		Data Interpreting tables erpretation and graphs 11. Read the data represented in simple pictographs graphs.	11. Read the data represented in simple pictographs and bar graphs.	9 (1.5 wk
					12. Interpret the data represented in simple pictographs and bar graphs.

Stra nds	Topics	Sub Topics	Learning Outcomes	Lessons		
	Plane Shapes	Drawing shapes14.	Use two-dimensional shapes to draw patterns and pictures.			
Geometry				15. Make observations about their patterns and pictures. (E.g. some two-dimensional shapes make patterns that cover a page, others leave spaces.)	9	1.5
		ISnatial I	16. Identify the relative position of objects presented in concrete and pictorial form.	9	wk	
			17. Position objects according to descriptions of their relative position.			
		Vocabulary	17. Use time vocabulary appropriately, e.g., now, later, soon, year, month, day, etc.			
			18. Name the days of the week.			
		Use of the	19. State the number of days in a week.			
	Time	calendar Time	20. Name the months of the year.			
			21. State and write the date of the current day.	12		
			22. Tell time on the hour and half-hour.			
		Time o		23. Read and write time on the hour and half-hour in several ways (e.g., 8:00, eight o' clock).		
Measurement		and half-hour	24. Represent time on the hour and half-hour.		3.5	
Measu			25. Represent and write the time for events that occur on the hour or half-hour, e.g., break time.		wk	
		ageribing going	26. Describe the 1 cent, 2 cent, 5 cent, and 10 cent coins.			
	יט	escribing coins 2	7. Identify the 1 cent, 2 cent, 5 cent, and 10 cent coins.			
	R		8. Represent a coin value (up to 20 cents) using several ombinations of coins.			
	Money m	Money money	9 9. Find the total value of a combination of coins, with totals up o 20 cents.			
			Make change from amounts up to 20 cents, using counting n.			
			Create and solve problems involving money.
